

Student Change of Program Form

Student Name (please print):	Student ID:	Date:

Present Program (use code from choices listed on back)

New Program (use code from choices listed on back)

I wish to change my current program of study to the new program listed above:

Student Signature:	Date:

Changes of program

Students may change their program or areas of concentration by completing a change of program through the Enrollment Center or at the administrative offices at the other campuses. A change of program will result in an update of academic requirements to the current academic catalog. Students changing their concentration within a program may retain their original catalog year. International students attending BCC on an F-1 visa must receive approval for program changes from the Registrar's office. Grades already received in courses not applicable to the new program remain when computing the student's G.P.A. on the permanent record.

Transferring into certain programs, such as Culinary Arts, Clinical Laboratory Science, Complementary Healthcare, Dental Hygiene, Medical Assisting, Healthcare Information, Nursing, Occupational Therapy Assistant, Phlebotomy, Pharmacy Technician, Central Sterile Processing Technician, Medical Coding and Therapeutic Massage may be limited by space available as well as by the competitive nature of these programs. Please refer to the description of the program of interest for additional information on admission requirements and the academic background of competitive applicants. All programs will be filled on a space-available basis.

Program changes requested after the end of the add/drop period of a semester will be processed in the following term/semester.

This form must be completed fully and signed by the student in person at one of the College Enrollment Centers, or scanned and emailed to recordsoffice@bristolcc.edu from the student accessBCC email account. Faxes of this form will not be accepted. If you have any questions or concerns, please contact the Records Office at 774.357.2240.
