

# What is your (first) college level math class?

**Note:** You must have a C- or better in any college level course to take the next course in the sequence.

For questions or concerns please contact Dan or Autumn.

# Mathematics Competencies

In an effort to make developmental math pre-requisites more understandable for everyone involved, the Math Department has defined a set of Math Competencies. As of the 2013-14 College Catalogue, these competencies will be used as pre-requisites in lieu of any previously existing pre-requisites. There are multiple ways to earn each competency — earning minimum grades in a lecture-based class, completing certain modules in a computer-aided instruction class, with minimum placement test scores, waiver, exemption based on transfer work, and more recently, with consideration of high school GPA. This could be expanded in the future.

## Arithmetic Competency

- \* A score of 60 or higher on the Classic Arithmetic Accuplacer
- \* A score of 256 or higher on the Next Generation Arithmetic Accuplacer
- \* A score of 72 or higher on the Classic Elementary Algebra Accuplacer
- \* A score of 262 or higher on the Next Generation Quantitative Reasoning, Algebra, and Statistics (QAS) Accuplacer
- \* A grade of CD or higher in MTH 011
- \* Successful completion of Modules 1-4 in MTH 001
- \* Exemption or Waiver

## Introductory Algebra Competency

- \* A score of 72 or higher on the Classic Elementary Algebra Accuplacer
- \* A score of 262 or higher on the Next Generation Quantitative Reasoning, Algebra, and Statistics (QAS) Accuplacer
- \* A grade of CD or higher in MTH 021
- \* Successful completion of Modules 5-8 in MTH 001/2
- \* Exemption or Waiver

## Intermediate Algebra Competency

- \* A score of 82 or higher on the Classic Elementary Algebra Accuplacer
- \* A score of 268 or higher on the Next Generation Quantitative Reasoning, Algebra, and Statistics (QAS) Accuplacer
- \* A grade of CD or higher in MTH 031
- \* Successful completion of Modules 9-12 in MTH 001/2/3
- \* Exemption or Waiver

For questions, especially about developmental math, please contact the **Developmental Math Coordinator, Autumn Alden**, at [Autumn.Alden@bristolcc.edu](mailto:Autumn.Alden@bristolcc.edu) or 774-357-3985. For questions, especially about college level math or pre-requisite waivers, please contact the **Math Department Chair, Dan Avedikian**, at [Dan.Avedikian@bristolcc.edu](mailto:Dan.Avedikian@bristolcc.edu) or 774-357-2348.
