

IT STARTS WITH THE ARTS

I am firmly convinced that the community with a strong arts commitment is the better for it. The quality of life improves. People have places to go, choices to make, things to see. The benefits are a hundred fold! Our world is expanded and changed. We become civilized. We understand each other better and finally, we improve.

H. M. Booth
Chair of the Art Gallery Campaign Committee

EXHIBITION DEVELOPMENT WITH A FOCUS ON EDUCATION

777 ELSBREE STREET | FALL RIVER, MA 02720
774-357-2439 | BRISTOLCC.EDU/GALLERY

The Grimshaw-Gudewicz Art Gallery supports the educational mission of the college and offers opportunities for the exchange of ideas that engage and enrich our community.

Each year we develop a series of diverse exhibitions, across a range of topics, that are designed with an educational and multidisciplinary focus.

Exhibitions are designed to support the learning environment and create opportunities for students and the community to discover the creative process. Our goal is to introduce and to explore a variety of conventional and innovative approaches to creating, understanding and defining meaning in art objects.

We already know how to see, but learning how to decode the language of art is exciting and rewarding. Learning how to use visual thinking strategies can be extremely beneficial in many kinds of problem solving and a great reason to visit us!

VISIT US

BCC faculty are welcome to arrange class visits Monday through Friday during regular hours in the Gallery. We can also arrange class visits after hours. When you arrive, our staff can spend a few minutes talking about the exhibition on display or we can target the conversation around a specific topic or class assignment. To learn more or coordinate a visit, please contact Kathleen Hancock, Director of the Gallery.
