

Interested in a career in project management?

Project management is recognized by businesses – large and small – as the discipline that moves ideas into reality. The call for trained project managers has never been greater, and Bristol is on the forefront of this call with our Project Management certificate program.

- Hear from graduates
- Meet the faculty
- Explore career opportunities
- Bring your questions

Set yourself apart in the job market. Earn a certificate that will enhance your career opportunities and salary potential. Ideal for the fields of Information Technology, Engineering, Marketing, Business and more.

Learn more about this profession and career path at this free information session. There is no charge to attend and refreshments will be served.
